IN THE SPECIFICATION

Please amend the specification as follows:

Please delete paragraph [0035] and insert the following paragraph:

In this case, the fixing 11, according to a preferred embodiment of the invention, can be neutralized by movement of the bracket support 5 relative to a part of the vehicle that retains its spatial position basically unchanged even in the event of a head-on collision. That is to say that the fixing is fixed to such a vehicle part basically retaining its position in the event of a head-on collision and
